DETAILED ACTION

*** This office action is in response to Applicant's Amendment filed January 20, 2006.

Claims 17-22 and 24-26 are pending.

Allowable Subject Matter

1. Claims 17-22 and 24-26 are allowed for reasons as of record.
2. The following is a statement of reasons for the indication of allowable subject matter:

Applicant amended base claim 17 to further include the features of dependent claim 23, as objected to as being dependent upon a rejected base claim in the last office action, but would be allowable if rewritten in independent form. Accordingly, the references of record, alone or in combination, do not fairly anticipatively disclose each and every aspect of the claimed method, or fairly make a prima facie obvious case of the claimed method of making a storage device, in combination with other processing claimed limitations as recited in base claim 17, the inclusion of forming a first organic adhesion layer disposed over the substrate and over the first electrode; forming a ferroelectric polymer structure disposed above and on the first organic adhesion layer by forming a first crystalline ferroelectric polymer layer over the first organic adhesion layer, forming a spin-on ferroelectric polymer layer over the first crystalline ferroelectric polymer layer and forming a second crystalline ferroelectric polymer layer over the spin-on polymer layer; forming a second organic adhesion layer disposed above and on the ferroelectric polymer structure; and forming a second electrode disposed over the second organic adhesion layer.
